

REMARKS

A replacement Sequence Listing has been attached that specifically list the amino acid sequence Gly4Ser. Applicants direct that the Sequence Listing be entered into the specification. Applicants acknowledge the rejoinder of claim 50 and that claims 49 and 50 are allowable. Claims 1-4 and 9-15 were previously canceled without prejudice in favor of a continuing application. Hence, the currently pending claims are 49 and 50. Claim 49 has been amended to cite SEQ ID NO:52 in reference to Gly4Ser. Applicants find no other instances wherein the specification or claims do not conform to the sequence rules. In view of the above, the claims are now in condition for allowance. Applicants request a timely Notice of Allowance be issued in this application.

Applicants petition for an extension of time sufficient for consideration of this response.

The commissioner hereby is authorized to charge payment of any fees under 37 CFR § 1.17, which may become due in connection with the instant application or credit any overpayment to Deposit Account No.500933.

Respectfully submitted,

Wayne P. Fitzmaurice
